

Buzz Inck Pty Ltd: **Where's Buzz - The Game.**

Buzz is located in a city, town or village somewhere in the world. To search, select "Guess Location" then select a Country, which will then list a region, state or province, then select a town or place and a search will tell you whether you have been successful. If you find where he is, you receive [the Reward](#) (the reward can only be received by players who have purchased additional searches) and [the Donation](#).

The Reward

The reward is the amount as indicated at the time Buzz is found (this amount goes to the successful finder of Buzz). The reward is only available to players who have purchased additional searches.

The Donation

The amount called the "Donation" (which also accumulates as each new player joins) will be made directly by Buzz Inck in the finders name to the finders nominated * Animal Welfare Organisation or Charity. The donation is available to both free game players and players who have purchased additional searches.

**Refer to Terms and Conditions (T & C's) selection on App*

The Location

The location is randomly selected by a computer program and is locked and encrypted. The name of the location is not known to any one other than the Auditor whom has the encrypted record available to check and verify that security has not been breached and that a correct selection has been made *legitimately at the time Buzz has been found.

**Refer to Terms and Conditions (T & C's) selection on App*

The Search

The free download allows the user one free selection (search) every 24 hours. To participate fully which includes the in app games which assist with locating Buzz and to qualify for both [the Reward](#) and [Donation](#) a user must purchase additional selections (more guesses) as indicated.

Having purchased additional selections (more guesses) the user may then locate [the Compass](#) and collect [the Telescope](#) which when successfully completed will reveal the Country within which, the town (Buzz) is in. The In app challenges for [the Compass & Telescope](#) must be completed in order, first the compass then the telescope.

The Compass

The compass is buried somewhere on the island and can only be located by following the directions given (number of paces in a direction, north, south, east or west). The starting point is selected by the player and the number of paces and directions must be followed. At the end of which if the correct starting point has been selected and all the paces have been stepped out the compass will reveal itself on the last step. If not, the user has to try again.

Note: there is only one correct starting block which will lead to the compass being found.

The Telescope

The telescope is acquired by completing the dog catching the stick challenge. Sticks will appear from any side on the screen. Jump the dog and catch the stick. The player must have the dog catch the stick the number of times (as shown on screen) in succession without missing a catch. If this is achieved the telescope will appear.

The Compass & Telescope

When the compass and telescope have been acquired then a screen will reveal the "Country" within which the town (Buzz) is in.
